ABSTRACT

This directory was compiled from replies to a questionnaire distributed in early 1971 to the members of the Council of Planning Librarians. The entry for each library includes: the address and phone number of the library, the year the library was founded, the name of the librarian and the size of library staff, the hours of business, the regulations controlling the use of the library facilities, the resources of the library, and any publications produced by the library. In addition to the main alphabetical listing of libraries by name, there is a geographical index and a librarian index. Approximately 130 libraries are covered. (JG)

DIRECTORY OF LIBRARIES

Compiled by Eleanor Burt, Librarian
Tennessee State Planning Commission

The third edition of Council of Planning Librarians Directory of Libraries is based on replies to a brief inquiry form circulated in early 1971 to libraries represented in the 1970 CPL membership list.

The primary purpose of the directory - initiated at the request of the Council of Planning Librarians Executive Committee - is to provide data about planning library service, stimulate the exchange of ideas and experiences, and perhaps suggest standards of service.
